Associate Spotlight

Editor: How long have you been an IFMA member?

7 Months. My family and I moved to Oviedo from the SWFL area in January and I joined IFMA Orlando shortly after in May.

Editor: What types of products/services does your company provide for Facilities?
We (LandCare) pride ourselves on being a national, commercial, one stop shop landscaping firm. We provide services ranging from lawn and shrub maintenance, tree pruning, and irrigation maintenance and repair, to fertilization and pest control.

Editor: How did you get into the career you are now in?
Throughout high school and college I was constantly landscaping and mowing my neighbor’s yards. Despite having graduated from Embry-Riddle Aeronautical University with a BA in Aviation Business Administration, I continued to do what I loved most
which is working outside with a team of people while helping others beautify their property.

Editor: *What was your first paid job?*

In middle school my best friend and I delivered newspapers. Part of our duties included collecting weekly payments from our customers where I quickly learned the value of good customer service.

Editor: *What is the most challenging aspect of your current job?*

In Florida, and like many other industries, the landscape industry doesn’t stop. We are busy during all four seasons of the year, especially during hurricane season!

Editor: *What advice would you have for new people starting out in your career?*

It can be a very rewarding career for someone who likes to use their creativity, work outside in a team environment, and enjoy watching their vision come to life!

Editor: *What is your greatest professional and/or personal achievement?*

Working with Habitat for Humanity and helping these families move into their new house!

Editor: *Tell us something about yourself that perhaps most people do not know*

I played the trombone for my middle school jazz band.
